

**Pipeline and Hazardous
Materials Safety Administration**

APPROVAL CA2004080020
ISSUED BY THE COMPETENT AUTHORITY OF THE UNITED STATES
(14th Revision)
EXPIRATION DATE: February 24, 2028

1. **APPROVAL HOLDER:** Aether CT Co., Ltd.
113, Noksansandan 17-Ro
Gangseo-Gu
Busan, South Korea 46751
2. **REGULATORY AUTHORITY:** 49 CFR §107.807
3. **SYNOPSIS:** Aether CT Co., Ltd. is authorized to to manufacture the following specification cylinders: DOT 3AA, DOT 3AAX, DOT 3T and UN ISO 11120 by the **Spun Tube manufacturing method** at the facility located at the address above, under the supervision of the Independent Inspection Agency identified under section 5 (b) of this approval.
4. **BASIS:** This approval is issued in response to Aether CT Co., Ltd.'s application dated February 23, 2023, requesting to **renew their CA approval to manufacture DOT 3AA, 3AAX, 3T and UN ISO 11120 specification cylinders.**
5. **PERIOD OF VALIDITY AND CONDITIONS OF APPROVAL:** This approval does not provide relief from any requirements of the Hazardous Materials Regulations except as stated herein. This approval is valid until the posted expiration date or until terminated by the Associate Administrator for Hazardous Materials Safety.
 - a. **Approved Authority:** The holder of this approval is authorized to manufacture and mark the approved U.S. DOT and UN ISO cylinder specification cylinders listed below under the supervision of the independent inspection agency listed below in accordance with 49 CFR 178.71:

DOT Specification(s): 3AA, 3AAX, 3T, and UN ISO 11120 cylinders- Manufactured in accordance with 49 CFR 178.35, 178.37, 178.45 and 178.71.

Only approved designs on file with the department may be manufactured and marked under the terms of this approval.

- b. **Approved Independent Inspector (IIA):** Only the following IIA is currently authorized to conduct onsite inspections at your manufacturing facility:

**Hartford Steam Boiler Inspection and
Insurance Company (HSB)
One State Street, P.O. Box 299
Hartford, CT 06141 United States**

- c. **Registration Number:** M8902 is your assigned registration number and must be marked on all DOT cylinders manufacture under the terms of this approval.

6. **Safety Controls:**

- a. If DOT and UN ISO specification cylinder production has not been undertaken for more than six months, the Office of Hazardous Materials Approvals and Permits must be notified prior to resumption of production. Additional sample testing and/or an onsite inspection may be required prior to resumption of production, at the discretion of PHMSA.
- b. No deviation from designs, materials, method of manufacture, inspection procedures or any technical information submitted in support of the manufacturers or inspector's applications for approval is authorized unless approved in accordance with 6.d. of this approval.
- c. Failure to assure adequate independent inspection and verification will be grounds for termination or other enforcement action as provided for in the regulations. PHMSA must be notified in writing at least 20 days prior to a change in independent inspection agency service companies.
- d. Advance notice and written approval is required Before any of the following can be implemented:

- 1) Technical changes in the manufacturing process or procedures are made.
 - 2) Changes in the approved designs on file. However, additional approval is not required for design changes to the UN ISO designs identified above, provided the changes to the design are within the previously approved design type family as identified in the applicable UN ISO specification on file with PHMSA, and as certified by the currently approved Independent Inspection Agency on file with PHMSA. New designs that fall outside the approved design type family, which are identified as a new design type family within the confines of the authorized UN ISO specification, or production of new UN ISO specification cylinder not currently authorized by PHMSA, must be approved prior to manufacture under the terms of this approval.
 - 3) Adding a new DOT or UN ISO specification design, not meeting the requirements above, or which does not currently have design change criteria listed in the respective UN ISO specification (i.e. **UN ISO 11120 tubes**), or authorization to manufacture a cylinder specification not currently authorized to be manufactured under the authority of this approval.
- e. If non-technical information, submitted in your application for approval changes, Approvals and Permits must be notified, in writing, within 20 days of the change.

7. **SPECIAL PROVISIONS:**

- a. A current copy of this approval must be maintained and made available for examination at each location where cylinders are manufactured.

8. **GENERAL PROVISIONS:**

- a. Failure by any person to comply with the terms and conditions of this approval and the Hazardous Materials Regulations, 49 CFR Parts 171-180, may result in the modification, suspension or termination of that person's authority to use this approval. Failure to comply may also subject that person to penalties prescribed by 49

U.S.C. §§ 5123 and 5124. This approval may be modified, suspended or terminated in its entirety if that action is justified in light of changes in circumstances or additional information not available when this approval was issued. Unless immediate modification, suspension or termination is necessary to avoid a risk of significant harm to persons or property, before action is taken, that person will be notified and provided with an opportunity to show why the proposed action should not be taken.

- b. Each "Hazmat employee," as defined in § 171.8, who performs a function subject to this approval must be provided training on the requirements and conditions of this approval in addition to the training required by §§ 172.700 through 172.704.
- c. Any person operating under the terms of this approval must comply with the security plan requirement in Subpart I of Part 172 of the HMR, when applicable.
- d. This approval, as revised, supersedes all previous versions.**

Issued in Washington, D.C.

Dated: February 24, 2023
